CORiTEC® one

THE INTELLIGENT PRACTICE LAB SOLUTION

The new CORiTEC one® machine is a perfect choice for processing all common designed CAD/CAM blocks. With the new extremely stable axis kinematics, the machine is also capable to mill prefabricated abutments.

The high-quality cast aluminum construction ensures maximum stability with a minimum footprint. An integrated powerful PC along with 10'1" HD touch screen display supports a comfortable and ergonomic operation. A single block holder with six tool positions and smart tool replacement function guarantee an economical, safe and fast machining process with the highest quality. CORiTEC one is ideally suited every dental office, practice laboratory and clinic in combination with all open scanners. As a supplemental system for the specialized processing of glass ceramic, zirconia, composite and premilled abutment the CORiTEC one leaves nothing to be desired either for clinics, laboratories or milling centers.

CORiTEC[®] one

HIGHLIGHTS

- Novel closed mono-block cast body for stability and precision
- Self-sufficient operation without external required compressed air
- Optimized for the integrated CAD/CAM workflow with exocad
- Very fast grinding and milling process
- Short amortization period
- High precision due to integrated temperature compensation
- Machining of all common material blocks and prefabricated abutments
- Minimal footprint
- No external PC required
- Auto-calibration
- Automatic cleaning function
- Wet and dry machining option

ERGONOMIC HANDLING
simple touchscreen operating and full integrated PC

EASY CLEANING
Fully coated Enclosed wet cell

MINIMAL FOOTPRINT
ideal for dental office

POWERFUL PERFORMANCE
high end spindle for milling and grinding up to 100.000 rpm

SELF-SUFFICIENT OPERATION
No external Compressed air needed

INTEGRATED WATER SUPPLY AND FILTRATION

PMMA	WAX	1-fold holder (blocks/premilled abutments)	Crown, Bridge	Inlay, Onlay Veneer	Bridge larger 3 units	Splint

Glass ceramics	Premilled Ti-Abutment					
Premilled CoCr-Abutment						

CORiTEC® one+

THE EXTENDED CHAIRSIDE MILLING SYSTEM

The CORiTEC one+ is the high-end model in the chairside area. Due to the 5-axis simultaneous technology, the C-Clamp holder and the blank holder can be integrated in addition to the single universal holder. This generates new application possibilities and more flexibility for creating the expected tooth restoration. The compact and stable basic design of the machine enables precise work in block and blank shapes. Look and see for yourself and be convinced about the functionality and performance of CORiTEC one+, which exceeds all expectations of the dentist.

MAX PERFORMANCE in grinding and milling

Applications & holders

GRINDING BLOCK MATERIALS

- Production of all materials in milling/grinding
- Adapter also suitable for blocks of nano-composite

PREFABRICATED ABUTMENTS

- Integrated systems: DESS, nt-trading, Medentika, zfx, Zimmer Biomet
- 360 degree processing feasibility
- Short set-up time due to multi-adapter

BIOHPP ELEGANCE PREFABS

- Individual prefabricated abutment on PEEK basis
- BioHPP for permanent dentures, free of metal, oxide and monomer
- Homogeneous combination of titanium and BioHPP

THERAPEUTIC SPLINTS

- Bite splints, bleaching splints
- Snoring splints, aligners
- Simple and high-quality implementation in CAD/CAM processes

HALF-OPEN BLANK HOLDER (C-CLAMP)

- Enables 5-axis machining up to 90 degrees axis adjustment
- Extends the technical possibilities of your milling machine

MILLING OF MODEL CASTS

- Production in burnout materials (PEEK)
- Allergy-free and lightweight model casting when using PEEK
- Cost-efficient

ChairsideCAD software

With the help of exocad ChairsideCAD, crowns, inlays, onlays, veneers and small bridges can be designed and manufactured directly at the treatment center in a very innovative and fast workflow. Using the integrated In-CAD Nesting module, the designed jobs can be placed directly in the block for calculating and milling by the machine.

Add-on modules

MANY EXTENDED POSSIBILITIES

TrueSmile module

Realistic visualization of the dental restorations

Auto articulator module

Simulation of jaw movements for precise dynamic occlusion

Provisional module

Design of temporary egg shells based on preoperative scans

In-CAD nesting module

Positioning of restorations in milling blanks

Smile creator

Predictable planning and preview of esthetic restorations

Implant module

Design of abutments and directly screw-retained crowns and bridges

Your benefits

Increase patient satisfaction and improve efficiency

ChairsideCAD allows you to perform restorative dental procedures during a single visit dentistry.

Create esthetic and functional restorations and enjoy usability

ChairsideCAD is easy to use and guides you step by step through the process. Therefore, No extensive training is necessary.

Effortless collaboration with partners

ChairsideCAD facilitates communication with dental laboratories and production centers for better and more predictable results.

Process an unlimited number of cases

ChairsideCAD has no hidden costs or click charges.

Benefit from our proven software platform

exocad software has been an integral part of dental laboratories for 10 years.

Maintain your flexibility

ChairsideCAD supports virtually any modification you make to your workflow, equipment or services.

Expand your range of services

ChairsideCAD can be extended with various add-on modules according to your desires.

imes-icore Chairside Nesting+

SMART HIGH END SOLUTION

Experience multifunctional possibilities with 5-axis machining. The revolutionary Chairside Nesting+ allows the processing of indications without limitations due to the automated data transfer and the intelligent blank management. This makes workflows a secondary matter and puts the work on the patient in the focus.

Auto-calibration

FAST, PRECISE, COST-EFFICIENT

Auto-calibration allows both dentist and dental technician a quick and easy handling to ensure lasting precision without compromise.

CORiTEC® SmartControl™

SMART CONTROL OF MACHINE SOFTWARE

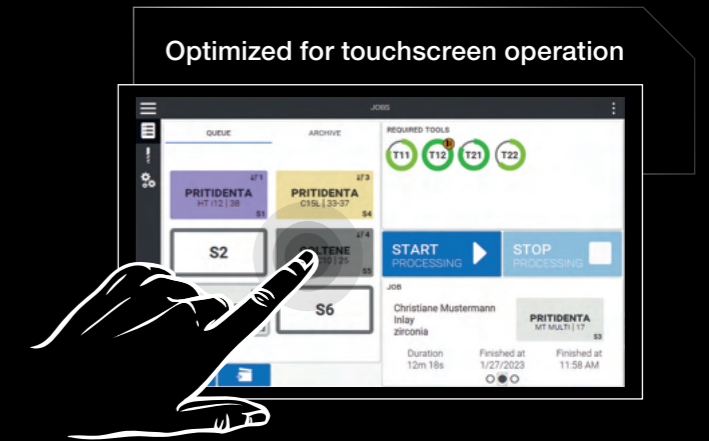

SmartControl™: one touch ahead!

The newly developed control software SmartControl™ enables absolutely intuitive operation of our milling machines. From selecting the job to milling or querying the machine status; the self-explanatory and optimized handling makes it possible to start operating the machine in the shortest possible time. Starting a milling process requires only two clicks – you benefit from the smart time savings for your workflow!

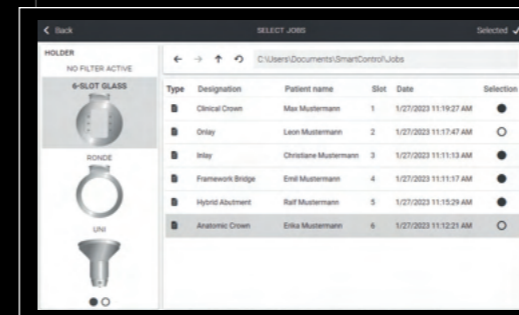

FEATURES

- Modern design and simple touch operation
- Intelligent selection of milling jobs
- Easy tool and material loading
- Auto-calibration of the machine
- Wizard guided cleaning and maintenance
- Connection to the Dental Smart Market (DSM)
- Multilingual program interface
- Automatic update function

Optimized for touchscreen operation

Automated transfer of information from the CAM software

Ideal tool management

Intraoral scanners

COMPATIBLE WITH **exocad**

To achieve a fully integrated workflow, the new CORITEC *ione* machine system can be combined with all open intraoral scanners.

Producer	Scanner model
imes-icore	CORITEC <i>ione</i> scan
GC	Aadva IOS 200
Align	iTero
Carestream	CS 3600 / CS 3700
Medit	i500/i700
Shining 3D	Aoralscan
Dentsply Sirona	Primescan

CORITEC® *ione* scan

AN EXCELLENT CHOICE FOR OUTSTANDING RESULTS – THE CORITEC *ione* scan!

CORITEC *ione* scan is a perfect upgrade for digital dentistry. A completely open system that allows you to work in your digital workflow. Regardless of how you want to process the work, CORITEC *ione* scan guarantees an efficient digital chairside workflow for your practice lab as well as in cooperation with your preferred partners. User-friendly, intuitive, small, perfectly connected to exocad Chairside CAD and our two chairside milling machines CORITEC *one* and CORITEC *one*†.

Suction unit

iVAC silent

The unit is equipped with a teflon filter cartridge, automatic filter cleaning and a dust drawer. With the suction power of 160m³/hr the iVAC silent is perfectly suited for your CORITEC *one* and *one*†. The unit can be stored on the optional machine table.

	iVAC silent
Airflow	160 m ³ /hr
Power	490 W
Filter system	Teflon filter cartridge, automatic cleaning feature
Filter volume	8 liters/30.28 gpm (dust drawer)
Width x depth x height	9.6 x 19.6 x 17.3 inch / 245 x 500 x 440 mm
Supply voltage	230 V
Special features	Suitable for machine tables T0, T1 and T2, quiet running, very compact, self-cleaning by vibration

Machine table

Machine table T0

The T0 offers stability and appealing optics. Steady castors guarantee the secure mobility of your machine. The dimensions of 422 x 540 x 900 mm / 16.6 x 21.3 x 35.4 inch (W x D x H) provide sufficient utility space. Focusing on space-saving the T0 is equipped with drawers, cable bushing and storage room for the respective suction unit.

wet milling

...IN THE
CHAIRSIDE AREA

Both systems can be easily combined with the intraoral scanner (i-one Scan) from imes-icore. The perfect combination of the workflow with the exocad software guarantees the best user-friendly, precise and optimized systems for the chairside area.

dry milling

UNSURPASSED
FLEXIBILITY...

Both CORTEC *one*, as well as *one+* offer an unsurpassed range of indications with the possibility of wet and dry processing. Regardless of the chosen method, the stable core of the system offers the highest quality restoration.
